

Abstract

This document is a review of the Physics 12 course. I had some time on my hands and I really needed to study for exams so here goes nothing. If you find any mistakes, please let me know so I can fix them. I hope this helps you!

1 Dynamics

1.1 Kinematics

Kinematics is the study of motion without considering the forces that cause the motion. It is the study of the motion of objects and their spatial and temporal properties such as position, velocity, and acceleration.
